QED Technologies Displays Cutting Edge 3D Form Metrology with the NMF350

An exciting addition for QED Technologies, the global leader in precision optics manufacturing solutions, as it acquires Dutch United Instruments and its Nanomefos metrology platform in the process. With unrivaled versatility, accuracy, speed, and non-contact and ease of use, the NMF350 S is a powerhouse in 3D form metrology.

TRIOPTICS and Precitech are Enhancing Precision Optics Manufacturing

TRIOPTICS and Precitech announce the integration of TRIOPTICS' state-of-the-art measurement system OptiCentric and ATS software processes with Precitech's single point diamond turning (SPDT) machines. This combination enables the production of high-performance mounted lenses for aerospace, defense, medical imaging, and consumer electronics while still allowing high-precision diamond turning on a wide range of materials.
