Europe Must Play to Its Strengths

Photonics21 President Lutz Aschke outlines where Europe leads in photonics, where it lags behind, and why political momentum matters more than ever.

[IonBeam Processing of PIC Waveguides](#)

scia Systems GmbH

scia Systems' ultra-precise ion beam processing is

driving manufacturers' success in producing PIC devices. Ion beam etching is ideally suited for the precise and uniform production of 3D waveguides while maintaining the integrity of the underlying material. Adjusting the ion incidence angle allows the creation of smooth vertical sidewalls. Material modifications by ion beam trimming improve thickness deviations, uniformity, and surface quality.
